Suppliers**

University
of Glasgow

One of Scotland's Oldest Universities Deserves Only The Greatest Service & Quality!

ESC have supplied Glasgow University with a variety of packaging solutions since 2007.

From recycled fabric to sustainable paper bags every product produced is entrenched in their environmental policy and is ethically sourced.

ESC Packaging manages over 40 products for the team at Glasgow University to ensure continuity and availability when required.

Every detail is carefully considered, from materials used to the ethical and moral sourcing of each product.

MATCHING ECO-FRIENDLY COTTON, JUTE, NWPP BAGS

ESC carry a vast range of stock fabric carrier bags here for overprinting within 7-10 days. When an urgent requirement looms we can jump to it and deliver quickly. Minimum order 100 bags.

The best pricing, however, comes when planning ahead. Our partner mills in Europe and India offer a fully bespoke bag design service with delivery options of either 8 weeks or 16 weeks.

We offer a wide choice of fabrics, ie Jute | Juco | Cotton | GOTS Cotton | Recycled Cotton | NWPP

MATCHING ECO-FRIENDLY COTTON, JUTE, NWPP BAGS

ESC Packaging ensures that Sustainability Quality and Ethical Sourcing is at the forefront of every project.

Our mills are audited to the highest standards & have SEDEX accreditation.

These eco-friendly paper bags are perfect for small items and are printed with water based ink.

Available in a variety of standard sizes. Made in UK.

Minimum order from 10,000

POTATO STARCH CARRIERS AND RECYCLED POLY CARRIERS

POTATO STARCH CARRIER BAGS

Superb UK made compostable carriers
PLASTIC FREE and eco-friendly.

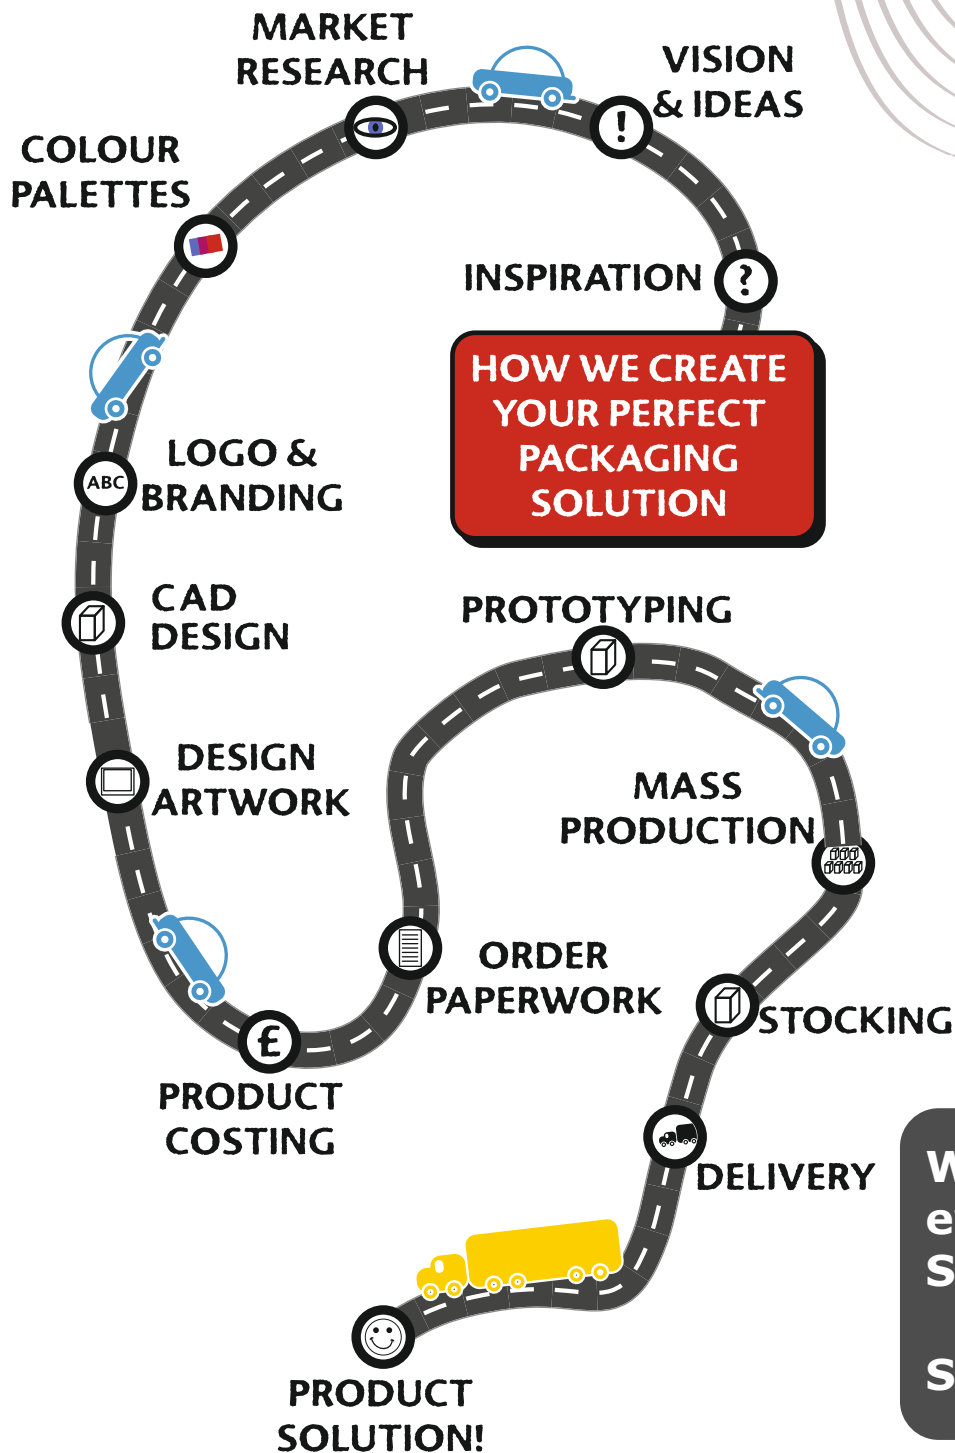

Standard sizes are available, the most popular is 380mm wide x 450mm tall. We can turn the top of the bag over to create a double thickness handle for extra strength, great for carrying heavy items. Printed 1,2 or 3 pantone colours on 1 or 2 sides. The minimum order is 500 bags. They are naturally a cloudy soft latex texture.

Frequently asked questions about these bags...

- 1) Do they disintegrate in the rain? - NO!
- 2) Do they compost in the box - NO!
- 3) Can you put in a household compost bin? - YES!
- 4) Will they decompose in a certain timescale? - NO!

Actually these bags will only start to decompose if they are exposed to WATER + HEAT for example in a compost bin. If kept nice and dry in cool conditions they will last and last.
